17:40 - 18:30 Conclusion (M. E. Cazzaniga)

18:30 Qualità percepita, fabbisogno formativo, test di apprendimento ECM

## RAZIONALE SCIENTIFICO

The rapid evolution in terms of drugs availability and new technologies claims for the training of an entire new generation of physicians. Aim of the Masterclass is to create a Lead Generation of

1) Experts

2) Drugs

3) Technologies

who can subsequently serve as trainers to other colleagues, inducing a large-scale knowledge of the hot topics related to high risk early breast cancer patients.

The Masterclass is dedicated to

- Oncologists who have at least 5 years of clinical activity, work in Hospitals in which a Breast Unit is present and active and who treat at least > 50 patients/year

- Breast Surgeons with a strong motivation to be actively part of patients' journeys, available to be involved in clinical decisions before and after surgery

- Fellows of Medical Oncology, Surgery and Pathology Fellowship programs.
